SAILSTAR

SAILSTAR

About Sailstar

Sailstar is a leading laundry machines manufacturer and service provider since 1986. Owned by Morningside, a leading investment group, the company has worldwide presence. With a production facility spread across 18900 sq.m and employing over 700 staff, Sailstar can boast of one of the most advanced manufacturing facility in China.

Sailstar with its global presence in USA, Europe and Asia is a true world leader in Laundry machines manufacturing and servicing. With its worldwide network of service locations, it is able to provide cutting edge technology to its client and latest product lines to create better and efficient laundries.

In India, Sailstar has been operating for last two years and have service locations at Mumbai, Bangluru, Delhi and Ludhiana.

Sailstar Achievements

Sailstar commits to provide customers with a wide range of world-class, quality and reliable washing and dry-cleaning products, timely and superior services and complete solutions. By far, Sailstar's customers have covered more than 30,000 dry-cleaning shops and 8,000 institutional users. In addition, about one third of four and five star hotels in China have become Sailstar's customers.

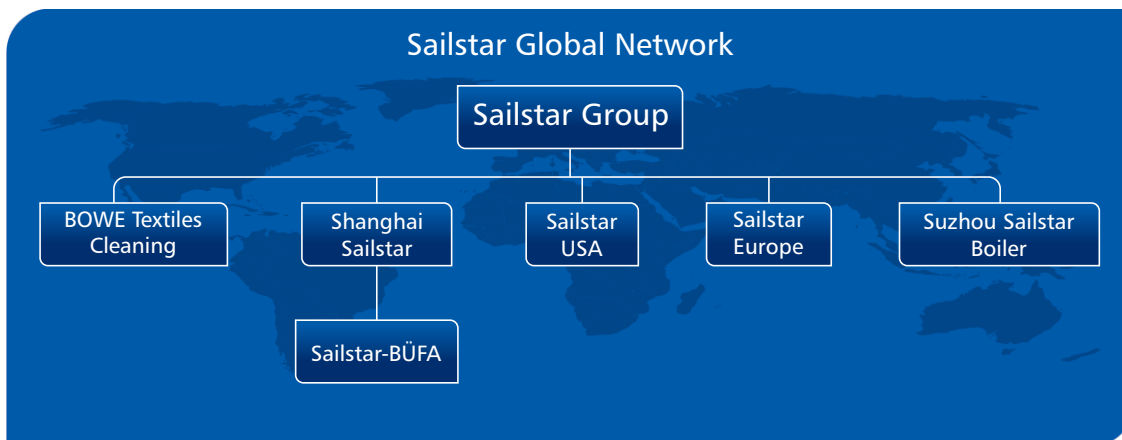

Expansion

Since 1996, Sailstar Group gradually expanded its market to the rest of the world and, later founded Sailstar USA and Sailstar Europe. With its worldwide network, Sailstar is able to improve its knowledge of the global market and to learn cutting-edge technologies, and from that, accelerates its new product development which facilitates on building up Sailstar brand awareness around the world.

Other than the China market, Sailstar products have also penetrated into USA, Germany, France, Finland, Canada, Australia, New Zealand, Japan and other developed countries.

Continuous Development

With the intention of maintaining the leading position in China, in each year, Sailstar invests a huge amount of time and efforts on product research, service upgrading, staff training and channel construction. By doing so, Sailstar is committed itself to deliver maximum value to its customers.

Two-Way Automatic Tilting Washer Extractors

Two-way 14° tilting makes it easier for workers to load and unload textiles.

Exclusive tapered plate structure can smoothly discharge textiles in 24 seconds. Its scattering function can reduce the possibilities of cloth twisting and wrinkling.

Available for 100 and 150 kg.

Washer Extractors

Specially designed lower suspension system reduces the vibration by 95%; increases the stabilization and life time of the machine.

Parts with water contact are made of stainless steel or processed by special anti-corrosion treatment which can extend the life of the machine.

Optional double drainage system for water reuse and to save operation costs.

Available from 15 to 150 kg.

Dryers

Compared to a normal heat exchanger, this dryer is equipped with a 30% larger heat exchange area which shortens the heating time and drying cycle.

Compact dryers can be set side by side, saving floor space.

Fully computer operated. Drying temperature and time can be set according to various types of textiles, Forward and reverse rotation can be selected.

Available from 15 to 100 kg.

Dry-Cleaning Machines

Excellent quality and environment-friendly. Manufactured strictly to International standards, the machines are exported to Europe, USA, Japan and other developed countries.

Double filter, energy efficient, multifunctional, safe and reliable.

GX Series Economical & Environment-Friendly Dry-Cleaning Machine

Environment-friendly. Cooling and recovering functions effectively control solvent discharge and residue and reduce solvent consumption.

Economical. Reliable, durable and user-friendly, which meets the basic requirements from customers.

Finishing Equipments

Built on cutting-edge international technology, they are exported to Europe and America

Excellent quality and performance meets all type of finishing requirements for customer

Available for Form Finisher, Manual Press Utility, Air Press Utility, Laundry Press and Spotting Board.

Ironing Machines

FC Full Speed Chest Ironer

With Speeds of 8-48 m/min, greatly increases ironing efficiency.

Intelligent operation system, touch screen panel, user-friendly interface and computer self-diagnosis function are easy to learn and operate. With 1.4m height makes it easier for front and rear operators to communicate with each other.

Available in 800mm roll diameter.

Cylinder Ironers

Stable transmission. Freely adjust the pressing speed depending on energy supply and textile thickness. Creates a smoother effect and improve pressing quality.

The utilization of ironing coverage exceeds 3/4, creating an outstanding energy-saving effect.

Width from 1500 to 3000 mm

Available in 800 mm roll diameter.

Folding Machines

FD 4-Lane Folder with Stacker

Manufactured with advanced Swiss technology. With an exclusive 1 to 4 lanes intelligent folding function, it is able to fold 4 clothes at the same time, saving time for small pieces.

Compatible with various ironers, adjustable speed ranging from 8-53m/min.

Stacker is optional.

ZD 1-Lane Folder

The folding action is completely by airflow and folding blade, resulting in maximum of 5 folds and 32 layers. Adjustable speed within 50m/min.

The pioneer of having an anti-static function effectively eliminates cloth from rolling and wrinkling.

Value Added Services

Pre sales support-

- 1 Value engineering your designs to reduce your cost.
- 2 Development of design floor plans, waste management, electrical and water pipe design layouts.
- 3 Help develop environmentally friendly solutions to reduce long term running costs.
- 4 Complete design and build for laundry

Service team location

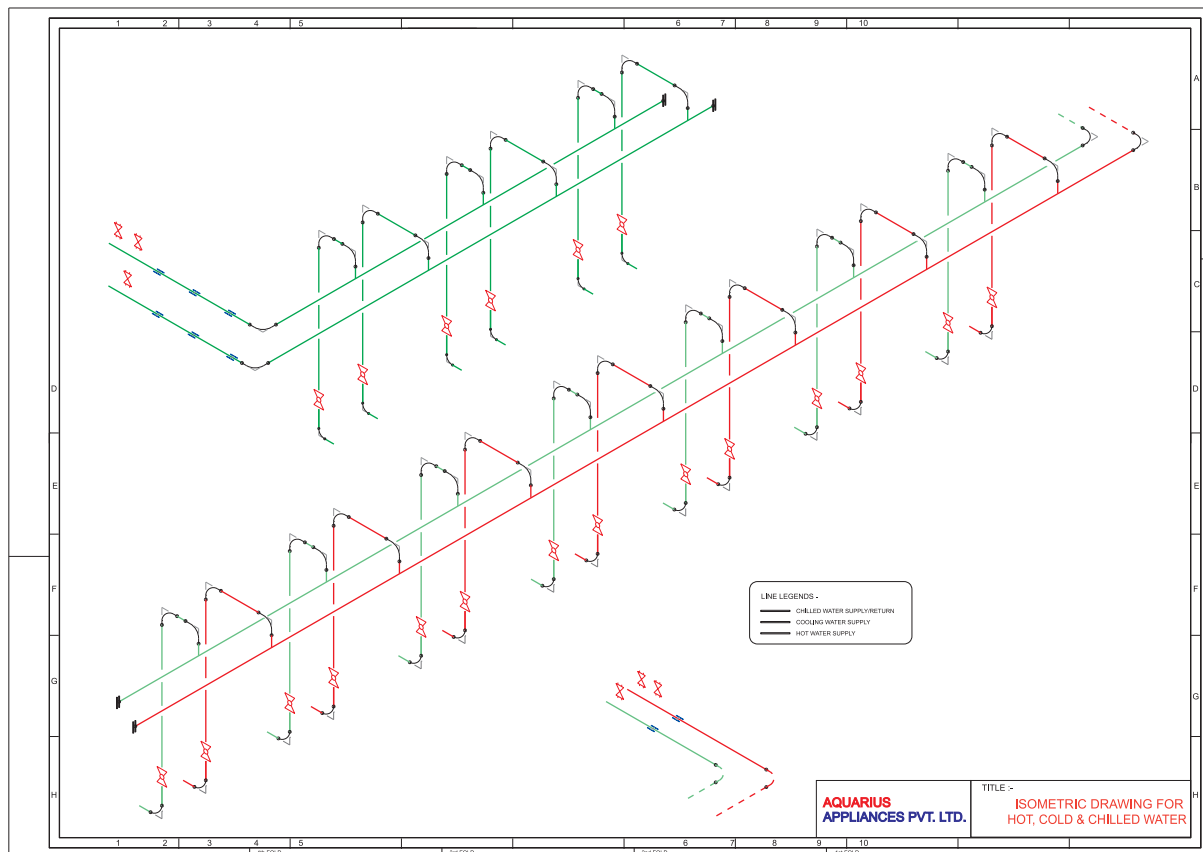

- 1 Offices located in Delhi, Bangaluru, Mumbai and Ludhiana
- 2 Well trained service engineers to resolve issues

Warranty

- 1 12 month warranty from acceptance date of equipment adjustment

After sales service

- 2 Machine site adjustments
- 3 Free repairing during warranty period for other than intentional damages
- 4 Facility operator training
- 5 Extended Warranty at a nominal cost
- 6 Easy access to Spare parts reducing downtime
